SUBJECTS

EDIZIONI MINERVA MEDICA TORINO

1. - ALPHABETICAL INDEX OF SUBJECTS

A

Abortion

Formino-Glutamic Acid (Figlu) excretion and abortion, 271.

Acupuncture

The morphological pathway of analgesia with acupuncture, 255.

Adrenogenital syndrome

Late adrenogenital syndrome with solely cutaneous symptomatology (necrotic acne), 145.

Aldosterone

Evaluation of body electrolytes, the renin-angiotensin system and aldosterone production in subjects with essential hypertension, 366.

Allergy

Long-term clinical trial with porcine monocomponent lente insulin (Monotard®), 247.

Aminoacids

Controlled and open clinical trials of various amino acids in liver diseases of varying severity, 145.

Ampicillin

Results with high doses of ampicillin in the management of bronchopneumopathy in 45 aged patients, 286.

Amyloidosis

Heparin tolerance in relation to age and the presence of amyloidosis, 147.

Anaesthesiology

Effect of ketamine on the metabolism of cerebral dopamine and serotonin, 439.

Ketamine in paediatric eye surgery in relation to intra-ocular pressure, 439.

Notes on the consumption of volatile anaesthetics in general anaesthesia with mechanical ventilation: a statistical comparison between fluothane and ethrane, 149.

Prolonged steroid anaesthesia by means of continuous perfusion of Althesin, 288.

Results with ketamine in 114 cases of serious kidney disease, 439.

Variations in the side-effects of ketamine employed at different doses and associated with various preanesthetic and anesthetic drugs, 439.

Analgesia

Controlled clinical trial with pentazocine suppositories in post-operative analgesia, 365.

The morphological pathway of analgesia with acupuncture, 255.

Aneurysm

Hepatic artery aneurysm as a cause of haemobilia, 286.

Angina pectoris

Atrial-pacing evaluation of the haemodynamic and clinical effects of a slow release preparation of isosorbide dinitrate in patients suffering from angina pectoris, 212.

Master's test results in 16 effort angina patients before and after amiodarone, 147.

Angiography

Action of Amantidine on arousal from Diazepam-Ketamine balanced narcosis in patients submitted to angiographical investigations, 79.

Evaluation of malignant insuloma response to streptozotocin therapy by celiac angiography, 45.

Angiology

Dihydroergocristine in the treatment of Raynaud's disease, 439.

Anorectal varices

Clinical results with a new preparation in the management of anorectal varices, 145.

Antehypophyseal function

Effect of electroconvulsive therapy (electroshock) on plasma ACTH, GH, LH, FSH, TSH and 11-OH-CS in patients with mental disorders, 237.

Antigen reactivity

Notes on the evaluation of antigen reactivity on blood stains. Experimental work, 145.

Antisecretory drug

Cross-over clinical comparison between anti-secretory activity of propantheline bromide and trithiozine (I.S.F. 2001), 339.

Effects of intravenous trithiozine (I.S.F. 2001) on gastric secretion in man, 333.

Aortic coarctation

Aortic coarctation. Radiological aspects 10-22 years after surgery, 210.

Aortic stenosis

Four cases of familial supravalvular aortic stenosis, 441.

Aregenerative enteropathies

The effects of MPG (2-Mercapto-propionyl-glycine) in atrophic enteritis and aregenerative enteropathies, 227.

Arrhenoblastoma

A case of arrhenoblastoma in a 14-yr-old girl, 286.

Arrhythmia
An example of an unusual arrhythmia association; tachycardia due to double atrial rhythm, with conduction disturbances and Wolff-Parkinson-White syndrome, 210.

Arteries
A case of haemobilia due to perforation of the cystic artery in a residual cystic stump included in the same ligature, 443.
Problems in emergency surgery: ligation of the hepatic artery, 80.
Traumatic thrombosis of the peripheral arteries, 289.

Arteriosclerosis
Clinical results obtained with an association of clofibrate and dipyridamole in 53 cases of athero-arteriosclerosis, 211.

Atrioventricular block
Phonomechanocardiography in complete atrioventricular block, 440.

Atropic enteritis
The effects of MPG (2-Mercapto-propionylglycine) in atrophic enteritis and aregenerative enteropathies, 227.

B

Beta-blocking drugs
Clinical evaluation of a new anti-hypertensive drug [3-hydrazino-6 (N,N-bis-2-hydroxyethyl)-amino]-pyrazidine hydrochloride as compared with hydralazine and first results with its association with beta-blocking drugs, 148.

Bezoars
Pericardial perforation of a gastric ulcer secondary to phytobezoar, 353.

Biochemistry
Biochemical problems in the study of the insulin receptor, 125.

Blood
Notes on the evaluation of antigen reactivity on blood stains. Experimental work, 145.

Bone metastasis
Administration of Glucose-1-phosphate (G-1P-Ca) in different disorders of ossification and bone metastasis, 69.

Brain scan
Results with ^{99m}Tc-gluconate as a positive indicator in the diagnosis of brain and lung cancers in children, 221.

Breast secretion
Pathological breast secretion, 275.

Bronchial endoscopy
Semeiological detection of bronchiogenic cancer, 5.

By-pass
Indications and contraindications to coronary surgery, 315.

C

Capillaroscopy
Capillaroscopic pictures of the hyponychium of surgical interest, 325.

Carbohydrate
Valutation of carbohydrate and lipid metabolism in 21 chronic hemodialysis patients, 366.

Cardiology
Echocardiographic study of the action of trinitroglycerin on the internal dimension of the left ventricle, 440.
Haemodynamic aspects of suppression of ventricular tachycardia by means of high supraventricular frequencies. Preliminary observations. II: Atrioventricular capture with reduction of the mean ventricular frequency, 440.
Phonomechanocardiography in complete atrioventricular block, 440.

Catecholamines
Catecholamines and electromechanical systole in the initial stage of myocardial infarction, 147.

Catheterization
Fatal thromboembolism after central venous catheterization, 289.

Cephalosporins
The therapeutic use of cephalosporins, 211.

Chemotherapy
Evaluation of malignant insuloma response to streptozotocin therapy by celiac angiography, 45.

Cholestasis
Three cases of benign recurrent intrahepatic cholestasis (Summerskill-Walshe syndrome), 257.

Chondrosarcoma
Chondrosarcoma of the larynx of unusual size, 279.

Chromosome
The clinical picture of multiple deformity in a subject with a 49,XXXXY chromosome pattern, 441.

Coma
Acute hyperparathyroidism. Emergency surgery in a case of hypercalcaemic coma, 287.

Chylothorax
Chylothorax: an unusual complication of cervicothoracic gangliectomy, 79.

Cirrhosis
Results with witiolone in the management of cirrhosis of the liver, 212.

Climacterium
Glucose tolerance in postmenopausal women receiving a new, non-steroidal estrogen-like compound, P-1496, 65.

Colitis
Ultrastructural features of the colon epithelium in patients with ulcerous and granulomatous colitis, 145.

Colon
Serous injury of the colon, 79.

Connective tissue
The polysaccharide components of connective tissue ground substance in retraction of palmar aponeurosis (Dupuytren's disease), 329.

Coronary disease
Indications and contraindications to coronary surgery, 315.

Cryptorchidism
Relation between hypophyseal-gonadal function and testicular histology in cryptorchidism, 146.

D

Dermatology
Applications of thermography in dermatology, 213.
Late adrenogenital syndrome with solely cutaneous symptomatology (necrotic acne), 145.

Desoxy-ribonucleic-acid (DNA)
Role of mastocyte dependent vasopermeabilization on immune complex deposition in lupus erythematosus glomerulonephritis, 303.

Diabetes
Changes in insulin and NEFA levels in diabetics after acute i.v. glypizide and tolbutamide, 286.

Diabetes
Iodoinsulin kinetics in normal and diabetic subjects. I. Data analysis and modelling, 135.
Iodoinsulin kinetics in normal and daibetic subjects. II. Pathophysiological aspects, 139.
Results with small doses of insulin in pregnant women with potential and latent diabetes, 441.

Dialysis
Dialysis and heparin therapy in the hemolytic-uremic syndrome in childhood, 79.

Dietetics
Dietetic therapy of prediabetic state, 107.

Dopamine
Effect of ketamine on the metabolism of cerebral dopamine and serotonin, 439.

Drug effects
Action of Amantidine on arousal from Diazepam-Ketamine balanced narcosis in patients submitted to angiographical investigations, 79.
Clinical assessment of Voltaren in orthopaedics. Comparative experiment with indomethacin, 146.
Clinical evaluation of naloxone, 365.
Clinical results obtained with an association of clofibrate and dipyridamole in 53 cases of atheroarteriosclerosis, 211.
Controlled clinical trial with pentazocine suppositories in post-operative analgesia, 365.
Mechanism of the antihypertensive effect of furosemide, 365.
Results with high-dose amoxycilin in general medicine, 146.

Duodenal ulcer
Vagotomy of the parietal cells as the treatment of choice for duodenal ulcer, 442.

Dupuytren's disease
The polysaccharide components of connective tissue ground substance in retraction of palmar aponeurosis (Dupuytren's disease), 329.

Dwarfism
Camptomelic dwarfism. Re-examination of a personal case, 80.

Dyschromatopsia
Colour vision and road safety, 245.

E

Echocardiography
Echocardiographic study of the action of trinitroglycerin on the internal dimension of the left ventricle, 440.

Electrocardiography
Electrocardiographic functional diagnosis of pseudoischaemic syndrome, 148.
Tele-ECG findings in a study of heart performance in athletes, 442.

Electroshock
Effect of electroconvulsive therapy (electroshock) on plasma ACTH, GH, LH, FSH, TSH and 11-OH-CS in patients with mental disorders, 237.

Endocrinology
Endemic goitre and inflammation of the hypothalamus, 27.

Endothoracic sarcoidosis
Notes on the management of endothoracic sarcoidosis with ACTH, 345.

Enteritis
Epidemiological and clinical features of salmonella-induced enteritis, 147.

Experimental surgery
Effect to acute ureteral obstruction on dynamics of ultrafiltration in rat kidney, 365.

F

Figlu
Formino-Glutamic Acid (Figlu) excretion and abortion, 271.

Folic acid
Formino-Glutamic Acid (Figlu) excretion and abortion, 271.

Furosemide
Mechanism of the antihypertensive effect of furosemide, 365.

G

Galactorrhoea
Isolated galactorrhoea. A pathogenetic interpretation and classification of one clinical case, 80.

Gangliectomy
Chylothorax: an unusual complication of cervicothoracic gangliectomy, 79.

Gangrene
Ischaemising phlebitis and venous gangrene, 288.

Gastric secretion
Cross-over clinical comparison between anti-secretory activity of propantheline bromide and trithiozine (I.S.F. 2001), 339.

Gastric secretion
Effects of intravenous trithiozine (I.S.F. 2001) on gastric secretion in man, 333.
Gastric secretion in uremia, 368.

Gastroenterology
Clinical and radiological notes on 8 cases of benign tumour of the duodenal cap, 440.

Gestosis
Prevention of neonatal icterus by administration of Toxepasi Complex in gravid as suffering from EPH gestosis, 287.

Glomerulonephritis
A case of acute post-streptococcic glomerulonephritis in a patient who had suffered from previous nephrosis with minimal lesions, 80.

Glucagon
Glucagon in prediabetes, 95.

Glucose
Glucose tolerance in postmenopausal women receiving a new, non-steroidal estrogen-like compound, P-1496, 65.

Glucose-1-phosphate
Administration of Glucose-1-phosphate (G-1-P-Ca) in different disorders of ossification and bone metastasis, 69.

Glycaemic curve
Diagnostic value of the glycaemic curve following oral glucose load in pregnancy for the identification of a prediabetic condition, 366.

Goitre
Endemic goitre and inflammation of the hypothalamus, 27.

Goldenhar's syndrome
A case of Goldenhar's syndrome with interventricular defect, 442.

Gynaecology
Behaviour of serous immunoglobulin (IgG, IgA, IgM) in gestosis, 441.
Results with small doses of insulin in pregnant women with potential and latent diabetes, 441.
Secondary abdominal pregnancy coexisting with intra-uterine pregnancy, 75.

H

Haemobilia
A case of haemobilia due to perforation of the cystic artery in a residual cystic stump included in the same ligature, 443.
Hepatic artery aneurysm as a cause of haemobilia, 286.

Haemodialysis
Valutation of carbohydrate and lipid metabolism in 21 chronic hemodialysis patients, 366.

Haemodynamics
Analysis of a series of 183 patients examined at a haemodynamics centre in relation to the referral diagnosis, 211.

Haemolytic-uremic syndrome
Dialysis and heparin therapy in the hemolytic-uremic syndrome in childhood, 79.

Halogenated anaesthetics
Inotropism and halogenated anaesthetics: experimental study, 287.

Headache
Joint Meeting of the Italian and Scandinavian Migraine Societies, 158.
American Association for the Study of Headache Annual Meeting, 170.
The Migraine Trust International Symposium, 192.

Heart surgery
Four cases of familial supravalvular aortic stenosis, 441.
Indications and contraindications to coronary surgery, 315.

Heparin
Dialysis and heparin therapy in the hemolytic-uremic syndrome in childhood, 79.
Heparin tolerance in relation to age and the presence of amyloidosis, 147.

Hypercholesterolemia
Hypocholesterolemic effect of lactulose in man, 1.

Hyperostosis corticalis deformans
Chronic idiopathic hyperphosphatasia, 53.

Hyperparathyroidism
Acute hyperparathyroidism. Emergency surgery in a case of hypercalcaemic coma, 287.

Hyperphosphatasia
Chronic idiopathic hyperphosphatasia, 53.

Hypertension
A case of reversible hypertension due to local renal ischaemia, 366.
Control of arterial hypertension in chronic renal insufficiency in humans. Indirect evidence of a complex pathogenetic mechanism beyond renin and sodium, 210.
Evaluation of body electrolytes, the renin-angiotensin system and aldosterone production in subjects with essential hypertension, 366.

Hypoglycaemia
Hypoglycaemia in prediabetes, 101.

Hypogonadism
Clomiphene citrate, L-dopa and synthetic Gn-RH in evaluation of hypothalamic-pituitary function. Their effects on plasma LH and FSH in hypogonadotropic and hypergonadotropic hypogonadism, 15.

Hypothalamic-pituitary function
Clomiphene citrate, L-dopa and synthetic Gn-RH in evaluation of hypothalamic-pituitary function. Their effects on plasma LH and FSH in hypogonadotropic and hypergonadotropic hypogonadism, 15.

Hypothalamus
Endemic goitre and inflammation of the hypothalamus, 27.

I

Immunoglobulin
Behaviour of serous immunoglobulin (IgG, IgA, IgM) in gestosis, 441.

Immunology
Immunity in cancer, 357.
Severe immune deficiency combined with trisomy D, 149.
The lung in some forms of infantile immunopathy, 367.

Indomethacin
Clinical assessments of Voltaren in orthopaedics. Comparative experiment with indomethacin, 146.

Insulin
Biochemical problems in the study of the insulin receptor, 125.
Changes in insulin and NEFA levels in diabetics after acute i.v. glypizide and tolbutamide, 286.
Effects of serum insulin complexes on the uptake and normal utilization of insulin by isolated tissues and organs, 133.
Factors influencing kinetic release of insulin in vitro, 117.
Iodoinsulin kinetics in normal and diabetic subjects. I. Data analysis and modelling, 135.
Iodoinsulin kinetics in normal and diabetic subjects. II. Pathophysiological aspects, 139.
Long-term clinical trial wtih porcine monocomponent Lente insulin (Monotard®), 247.
Plasma insulin detection in the study of prediabetic subjects, 87.
Results with small doses of insulin in pregnant women with potential and latent diabetes, 441.
The role of the insulin receptor in states of insulin resistence in experimental animals and man, 123.

Insulin lipoatrophy
Long-term clnical trial with porcine monocomponent Lente insulin (Monotard®), 247.

Insuloma
Evaluation of malignant insuloma response to streptozotocin therapy by celiac angiography, 45.

Interventricular defect
A case of Goldenhar's syndrome with interventricular defect, 442.

Ischaemia
Ischaemic cardiopathy during chronic pulmonary heart, 212.
Ischaemising phlebitis and venous gangrene, 288.
Some metabolic aspects of myocardial ischaemia, 212.

K

Ketamine
Effect of ketamine on the metabolism of cerebral dopamine and serotonin, 439.
Ketamine in paediatric eye surgery in relation to intra-ocular pressure, 439.
Results with ketamine in 114 cases of serious kidney disease, 439.
Variations in the side-effects of ketamine employed at different doses and associated with various prenaesthetic and anesthetic drugs, 439.

Kidney
Effect of acute ureteral obstruction on dynamics of ultrafiltration in rat kidney, 365.
Tubular dysfunction in transplanted kidney, 81.

L

Lactulose
Hypocholesterolemic effect of lactulose in man, 1.

Laryngectomy
Rehabilitation of eating after supraglottic laryngectomy, 367.

Larynx
Chondrosarcoma of the larynx of unusual size, 279.

Liver diseases
Controlled and open clinical trials of various amino acids in liver diseases of varying severity, 145.
Toxic hepatitis brought on by Amanita phalloides, 367.

Lung
The lung in some forms of infantile immunopathy, 367.

Lung scan
Results with ^{99m}Tc-gluconate as a positive indicator in the diagnosis of brain and lung cancers in children, 221.

M

Malabsorption
Chronic idiopathic hyperphosphatasia, 53.

Master's test
Master's test results in 16 effort angina patients before and after amiodarone, 147.

Meckel's diverticulum
A rare case of puncture of Meckel's diverticulum, 287.

Menstrual cycle
Plasma TSH and PRL response to synthetic TRH during the menstrual cycle, 299.

Metabolism
Some metabolic aspects of myocardial ischaemia, 212.
Valutation of carbohydrate and lipid metabolism in 21 chronic hemodialysis patients, 366.

Migraine
Joint Meeting of the Italian and Scandinavian Migraine Societies, 158.
American Association for the Study of Headache Annual Meeting, 170.
The Migraine Trust International Symposium, 192.

Monocomponent insulin
Long-term clinical trial with porcine monocomponent Lente insulin (Monotard®), 247.

Mosaicism
Patau syndrome with 46,XY,13—,t(13p13)+/46,XY, 13—,t(13q-13q)+ mosaicism, 81.

Multiple deformity
The clinical picture of multiple deformity in a subject with a 49,XXXXY chromosome pattern, 441.

Myocardial infarction
Catecholamines and electromechanical systole in the initial stage of myocardial infarction, 147.
Prinzmetal's angina in subjects with acute or prior myocardial infarct, 39.

N

Naloxone
Clinical evaluation of naloxone, 365.

Narcosis
Action of Amantidine on arousal from Diazepam-Ketamine balanced narcosis in patients submitted to angiographical investigations, 79.

NEFA
Changes in insulin and NEFA levels in diabetics after acute i.v. glypizide and tolbutamide, 286.

Neonatal icterus
Prevention of neonatal icterus by administration of Toxepasi Complex in gravidas suffering from EPH gestosis, 287.

Nephrosis
A case of acute post-streptococcic glomerulonephritis in a patient who had suffered from previous nephrosis with minimal lesions, 80.

New drugs
Atrial-pacing evaluation of the haemodynamic and clinical effects of a slow release preparation of iosorbide dinitrate in patients suffering from angina pectoris, 212.
Clinical evaluation of a new anti-hypertensive drug [3-hydrazino-6 (N,N-bis-2-hydroxyethyl-amino]- prazidine hydrochloride as compared with hydralazine and first results with its association with beta-blocking drugs, 148.
Clinical study of a new anti-inflammatory-antipyretic preparation in respiratory diseases. Preliminary researches and controlled double-blind study, 148.
Evaluation of a new non-steroid estrogen activity (Zeranol-Ralone), 288.
Prolonged steroid anaesthesia by means of continuous perfusion of Althesin, 288.
Results with witiolone in the management of cirrhosis of the liver, 212.

O

Obesity
Psychogenic aspects of obesity in childhood, 367.

Oestrogens
Glucose tolerance in postmenopausal women receiving a new, non-steroidal estrogen-like compound, 1496.

Oncology
Clinical and radiological notes on 8 cases of benign tumour of the duodenal cap, 440.
Evaluation of malignant insuloma response to streptozotocin therapy by celiac angiography, 45.
Immunity in cancer, 357.
Results with ^{99m}Tc-gluconate as a positive indicator in the diagnosis of brain and lung cancers in children, 221.
Semeiological detection of bronchiogenic cancer, 5.

Onychomycosis
Vaccine therapy of a case of Candida Albicans induced onychomycosis, 288.

Ophthalmology
Ketamine in paediatric eye surgery in relation to intra-ocular pressure, 439.

Orchiopexy
Orchiopexy without testicle fixation, 81.

Orthopaedics
Clinical assessment of Voltaren in orthopaedics. Comparative experiment with indomethacin, 146.

Ossification disorders
Administration of glucose-1-phosphate (G-1-P-Ca) in different disorders of ossification and bone metastasis, 69.

Osteoectasia
Chronic idiopathic hyperphosphatasia, 53.

P

Pacing
Atrial-pacing evaluation of the haemodynamic and clinical effects of a slow release preparation of iosorbide dinitrate in patients suffering from angina pectoris, 212.

Paediatrics
A case of Goldenhar's syndrome with interventricular defect, 442.
Arterial sample and arterialized capillary sample in pediatric resuscitation, 81.
Ketamine in paediatric eye surgery in relation to intra-ocular pressure, 439.
Psychogenic aspects of obesity in childhood, 367.
The clinical picture of multiple deformity in a subject with a 49,XXXXY chromosome pattern, 441.
The lung in some forms of infantile immunopathy, 367.

Pancreatitis
Pancreatic stimulation with GIH and boots secretion in normal and chronic pancreatic subjects, 295.

Patau syndrome
Patau syndrome with 46,XY,13—,t(13p13)—/46,XY, 13—,t(13q—13q)+ mosaicism, 81.

Pentazocine
Controlled clinical trial with pentazocine suppositories in post-operative analgesia, 365.

Pericardium
Pericardial perforation of a gastric ulcer secondary to phytobezoar, 353.

Pharmacology
Pharmacologic treatment of the prediabetic state, 111.

Phlebitis
Ischaemising phlebitis and venous gangrene, 288.

Phonomechanocardiography
Phonomechanocardiography in complete atrioventricular block, 440.

Phospholipids
Essential phospholipids in the management of surfactant poisoning, 368.

Photobiology
Employment in photobiology of a new apparatus fitted with multiple UV and IR light sources. Theoretical principles and applications in the study of photodermatosis, 213.

Photodermatosis
Employment in photobiology of a new apparatus fitted with multiple UV and IR light sources. Theoretical principles and applications in the study of photodermatosis, 213.

Platelet activating factor (PAF)
Role of mastocyte dependent vasopermeabilization on immune complex deposition in lupus erythematosus glomerulonephritis, 303.

Pneumothorax
Surgical techniques indicated in spontaneous pneumothorax: personal experience in 266 operations, 289.

Poisoning
Essential phospholipids in the management of surfactant poisoning, 368.
Toxic hepatitis brought on by Amanita phalloides, 367.

Positive indicators
Results with ^{99m}Tc-gluconate as a positive indicator in the diagnosis of brain and lung cancers in children, 221.

Potassium levels
Changes of serum potassium during experimental bilateral nephrectomy and renal transplantation, 361.

Prediabetes
Diagnostic value of the glycaemic curve following oral glucose load in pregnancy for the identification of a prediabetic condition, 366.
Dietetic therapy of prediabetic state, 107.
Glucagon in prediabetes, 95.
Hypoglycaemia in prediabetes, 101.
Pharmacologic treatment of the prediabetic state, 111.
Plasma insulin detection in the study of prediabetic subjects, 87.

Pregnancy
Chronic renal disease in pregnancy, 389.
Diagnostic value of the glycaemic curve following oral glucose load in pregnancy for the identification of a prediabetic condition, 366.
EPH-gestosis isolated and complicating a pre-existing renal disease, 435.
Feto-placental unit and renal diseases in pregnancy, 433.
Fibrinogen and fibrin splitting products and other proteins in the urine during eclampsia, 401.
Fifty-two cases of protracted pregnancy, 368.
Glomerular diseases and pregnancy, 381.
Nephrologic pathology in pregnancy, 385.
Nephrologist's thoughts on toxaemia of pregnancy, 391.
Post-partum thrombotic microangiopathy, 423.
Pregnancy in pre-existing renal disease, 375.
Results with small doses of insulin in pregnant women with potential and latent diabetes, 441.
Secondary abdominal pregnancy coexisting with intra-uterine pregnancy, 75.
Serum and urinary fibrin/fibrinogen products (FDP) during pregnancy and after delivery, 407.
16-substituted steroids in the fetus and newborn infant in pregnancies complicated by EPH-gestosis, 437.

Prinzmetal's angina pectoris
Prinzmetal's angina in subjects with acute or prior myocardial infarct, 39.

PRL
Plasma TSH and PRL response to synthetic TRH during the menstrual cycle, 299.

Pseudoischaemic syndrome
Electrocardiographic functional diagnosis of pseudoischaemic syndrome, 148.

Pulmonary disease
Clinical study of a new anti-inflammatory-antipyretic preparation in respiratory diseases. Preliminary researches and controlled double-blind study, 148.
Results with high doses of ampicillin in the management of bronchopneumopathy in 45 aged patients, 286.
Results with salbutamol in the treatment of serious broncho-asthmatic crisis, 289.

Pulmonary heart
Ischaemic cardiopathy during chronic pulmonary heart, 212.

Pyelonephritis
Tomography in the diagnosis of chronic pyelonephritis, 213.

R

Raynaud's disease
Dihydroergocristine in the treatment of Raynaud's disease, 439.

Receptors
Biochemical problems in the study of the insulin receptor, 125.

Rehabilitation
Rehabilitation of eating after supraglottic laryngectomy, 367.

Renal diseases
Chronic renal disease in pregnancy, 389.

Renal disease
Control of arterial hypertension in chronic renal insufficiency in humans. Indirect evidence of a complex pathogenetic mechanism beyond renin and sodium, 210.
EPH-gestosis isolated and complicating a pre-existing renal disease, 435.
Feto-placental unit and renal diseases in pregnancy, 433.
Fibrinogen and fibrin splitting products and other proteins in the urine during eclampsia, 401.
Glomerular diseases and pregnancy, 381.
Nephrologic pathology in pregnancy, 385.
Nephrologist's thoughts on toxaemia of pregnancy, 391.
Post-partum thrombotic microangiopathy, 423.
Pregnancy in pre-existing renal disease, 375.
Results with ketamine in 114 cases of serious kidney diseases, 439.
Serum and urinary fibrin, Fibrinogen products (FDP) during pregnancy and after delivery, 407.
16-substituted steroids in the fetus and newborn infant in pregnancies complicated by EPH-gestosis, 437.

Renal ischemia
A case of reversible hypertension due to local renal ischaemia, 366.

Renal transplantation
Changes of serum potassium during experimental bilateral nephrectomy and renal transplantation, 361.

Transplantation
Tubular dysfunction in transplanted kidney, 81.

Renin-angiotensin system
Evaluation of body electrolytes, the renin-angiotensin system and aldosterone production in subjects with essential hypertension, 366.

Resuscitation
Arterial sample and arterialized capillary sample in pediatric resuscitation, 81.

Road safety
Colour vision and road safety, 245.

S

Salbutamol
Results with salbutamol in the treatment of serious broncho-asthmatic crisis, 289.

Salmonella
Epidemiological and clinical features of salmonella-induced enteritis, 147.

Secretin
Pancreatic stimulation with GIH and Boots secretion in normal and chronic pancreatic subjects, 295.

Serotonin
Effect of ketamine on the metabolism of cerebral dopamine and serotonin, 439.

Sports medicine
Tele-ECG findings in a study of heart performance in athletes, 442.

Stimulated secretion
Cross-over clinical comparison between anti-secretory activity of propantheline bromide and trithiozine (I.S.F. 2001), 339.
Effects of intravenous trithiozine (I.S.F. 2001) on gastric secretion in man, 333.

Stomach ulcer
Pericardial perforation of a gastric ulcer secondary to phytobezoar, 353.

Stress ulcer
Present aetiopathogenetic, physiopathological and prophylactic questions relating to stress ulcer, with particular reference to vascular surgery, 307.

Summerskill-Walshe syndrome
Three cases of benign recurrent intrahepatic cholestasis (Summerskill-Walshe syndrome), 257.

Surgery
Acute hyperparathyroidism. Emergency surgery in a case of hypercalcaemic coma, 287.
Aortic coarctation. Radiological aspects 10-22 years after surgery, 210.
Personal experience in the surgical therapy of recurrent leg varicosity, 213.
Problems in emergency surgery: ligation of the hepatic artery, 80.

Surgical techniques indicated in spontaneous pneumothorax: personal experience in 266 operations, 289.
Vagotomy of the parietal cells as the treatment of choice for duodenal ulcer, 442.

Synthetic ACTH
Notes on the management of endothoracic sarcoidosis with ACTH, 345.

Systemic lupus erythematous
Role of mastocyte dependent vasopermeabilization on immune complex deposition in lupus erythematosus glomerulonephritis, 303.

T

Tachycardia
An example of an unusual arrhythmia association; tachycardia due to double atrial rhythm, with conduction disturbances and Wolff-Parkinson-White syndrome, 210.

Thermography
Applications of thermography in dermatology, 213.

Thoracotomy
Semeiological detection of bronchiogenic cancer, 5.

Thromboembolism
Fatal thromboembolism after central venous catheterisation, 289.

Thrombosis
Traumatic thrombosis of the peripheral arteries, 289.

Tolbutamide
Changes in insulin and NEFA levels in diabetics after acute i.v. glypizide and tolbutamide, 286.

Tomography
Tomography in the diagnosis of chronic pyelonephritis, 213.

TRH
Plasma TSH and PRL response to synthetic TRH during the menstrual cycle, 299.

Trinitroglycerin
Echocardiographic study of the action of trinitroglycerin on the internal dimension of the left ventricle, 440.

Trisomy D
Severe immune deficiency combined with trisomy D, 149.

Trithiozine
Effects of intravenous trithiozine (I.S.F. 2001) on gastric secretion in man, 333.

TSH
Plasma TSH and PRL response to synthetic TRH during the menstrual cycle, 299.

U

Uraemia
Gastric secretion in uraemia, 368.

Ureteral obstruction
Effect of acute arterial obstruction on dynamics of ultrafiltration in rat kidney, 365.

V

Vaccine
Vaccine therapy of a case of Candida Albicans induced onychomycosis, 288.

Vagotomy
Vagotomy of the parietal cells as the treatment of choice for duodenal ulcer, 442.

Varices veins
Personal experience in the surgical therapy of recurrent leg varicosity, 213.

Vascular surgery
Present aetiopathogenetic, physiopathological and prophylactic questions relating to stress ulcer, with particular reference to vascular surgery, 307.

Ventricular tachycardia
Haemodynamic aspects of suppression of ventricular tachycardia by means of high supraventricular frequencies. Preliminary observations. II: Atrioventricular capture with reduction of the mean ventricular frequency, 440.

Viral hepatitis
Coenzyme A in viral hepatitis, 149.

W

Wolff-Parkinson-White syndrome
An example of an unusual arrhythmia association; tachycardia due to double atrial rhythm, with conduction disturbances and Wolff-Parkinson-White syndrome, 210.
